A space-efficient solution that is perfect for a single school's digital media delivery needs and remote server applications

The SAFARI Montage® RM-540 server offers maximum system performance with an ultra-fast Quad Core Intel® Xeon® E3-1271 V3 processor and future expandability with five hard drive bays.

Manufactured by SAFARI Montage, this server has been custom-configured and optimized for high-quality video playback on the SAFARI Montage platform. With five hard drive bays, the RM-540 provides the storage capacity for thousands of hours of created content and expansion capacity to meet future growth needs.

All servers come pre-loaded with the SAFARI Montage® OS and the appropriate number of Core Content hard drives to match your order. With each installation, SAFARI Montage carefully evaluates district needs and bandwidth to develop a customized system recommendation tailored specifically for that district.
