

Google® Integration Instructions

SAFARI Montage® v6.4

NOTE: Google Integration must be configured by an Administrator.

SAFARI Montage now offers Interoperability Support Services subscribers a powerful new integration option that links SAFARI Montage directly with Google G Suite for Education, providing:

- Single Sign-On Access to SAFARI Montage via Sign in with Google
- Single Sign-On Access to Google Drive, Google Classroom, and Google Apps
- Federated search of Google Drive from within SAFARI Montage
- Direct upload of files from Google Drive in any of 50+ supported file formats – plus Google Drive file formats
- Auto-conversion of Google App file formats to PDF or compatible MS Office formats
- Ability to save Google Drive search results as live web links, allowing continuing collaboration on shared Google files while accessing them through the SAFARI Montage LOR
- Ability to share content from SAFARI Montage to Google Classroom

Requirements:

- SAFARI Montage version 6.4 or greater
- SAFARI Montage Interoperability Support Services
- SAFARI Montage server(s) (including any remote servers) must be publically accessible and registered with SAFARI Montage (Performed in advance by SAFARI Montage Technical Support for most districts)
- SAFARI Montage remote servers must have Google Integration enabled locally.
- SAFARI Montage user accounts must exist and be associated with a Google Account via email address.

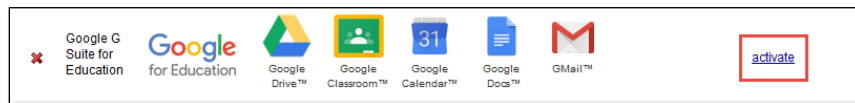

NOTES:

- *Google Drive, Classroom, and Apps integration can be enabled independently of Google SSO integration by administrators.*
- *Contact SAFARI Montage Technical Support with questions pertaining to these instructions. SAFARI Montage Technical Support is available Monday - Friday from 8 a.m. to 6 p.m. Eastern Time, and they may be contacted by telephone at 800-782-7230 or online via <http://www.safarimontage.com/support>.*

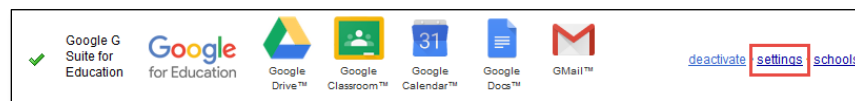

Configuration Instructions:

1. Enable the Google Integration Service:

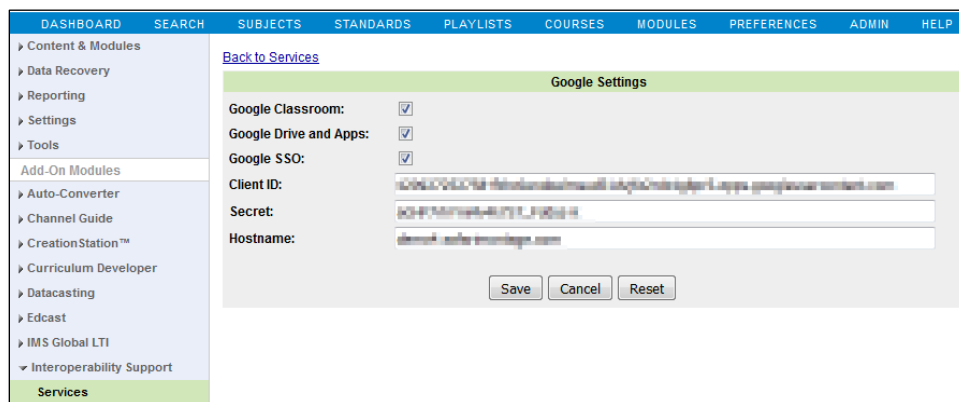

- a. Navigate to **ADMIN > Interoperability Support > Services** and click on the **Activate** link.

- b. Click on the **Settings** link.

- c. Enable or Disable **Google Classroom, Google Drive and Apps** and **Google SSO** according to District preferences.

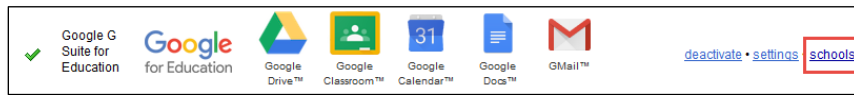

Note:

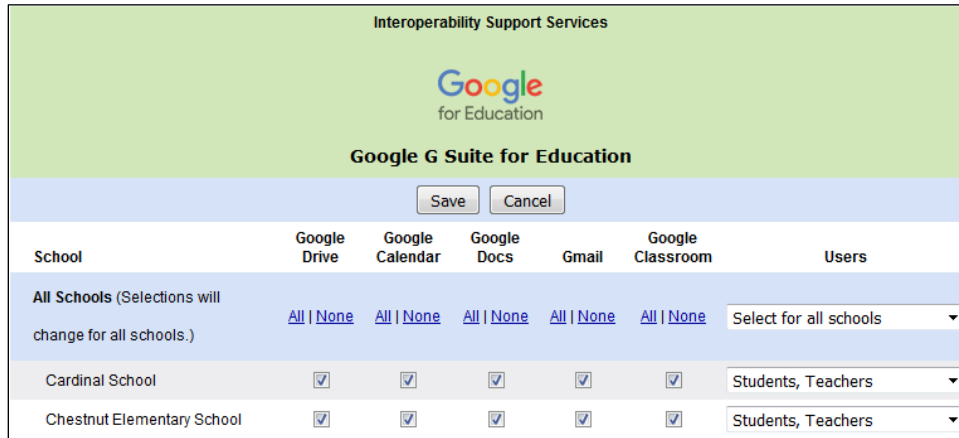

- *Client ID, Secret and Hostname are prepopulated and need not be modified in most cases.*
 - *Ensure that the Hostname field contains the publically accessible, fully qualified domain name of your SAFARI Montage server.*
- d. Click on the **Save** button to save the Google Integration configuration.

2. Configure Google Integration for each School:

- a. Once the Google Integration is activated, administrators can configure which Schools and User Types will be able to access the integration by clicking on the **Schools** link.

- b. Each School can be configured to enable or disable access to Google Drive, Calendar, Docs, Gmail, and Google Classroom, and to restrict which user types are allowed access to the integration.

- c. Click on **Save** for settings to take effect.

Note:

- *By default, Google Drive, Classroom, and Google Apps integration are enabled for Students and Teachers (and above).*

For instructions on using the Google for Education Integration please see the [SAFARI Montage Share to Google Classroom Teacher Guide](#) document.
